SUMMARY

I am a Salesforce developer having 2 years of experience. I have good knowledge of backend and work on salesforce B2B projects. I am a result oriented, focused, and skilled individual having experience building data intensive applications. Passionate about learning new technologies and willing to expand technological skill to latest industry trends.

TECHNICAL SKILLS

Java, Salesforce, Python, Apex (API, Trigger, Batch Class, Schedulers), SQL, SOQL

EXPERIENCE

Publicis Sapient, Gurugram, India: Associate Technology L1

Apr 2022 - Present

- Successfully designed and implemented new functionalities to enhance the performance and user experience of order, cart, and user management APIs, ensuring seamless customer usage.
- Optimized the codebase and improved efficiency, resulting in a significant reduction in lag and increased overall system responsiveness.
- Proficient in using Data Loader and Pentaho for loading bulk data into Salesforce.
- Developed a robust and efficient system using Spring Boot to automate the data template creation process. This process reduces lot of time of manual template creation.
- During this project, I proactively pursued professional development by successfully completing several certifications, further enhancing my skill set. These certifications include Salesforce Certified Platform Developer I (PD1), Salesforce Certified Administrator, Salesforce Certified B2B Commerce Administrator
- Works closely with the integration team (Boomi) to make sure the data flow is smoothly into Salesforce.
- I possess extensive hands-on experience in writing asynchronous Apex code to handle the insertion and validation of substantial data volumes. This expertise allows me to design and implement robust solutions that ensure efficient processing and maintenance of data integrity.

Publicis Sapient, Gurugram, India: Junior Associate Technology

Sep 2021 - Mar 2022

- Successfully customized the Salesforce B2B data model to align with specific business requirements, enhancing data management capabilities and optimizing system performance.
- Demonstrated proficiency in writing comprehensive test classes for Salesforce, ensuring robust test coverage of more than 80 percent to validate system functionality and minimize the risk of regressions.
- Proficiently utilized data loader tools to efficiently load data for various Salesforce objects, ensuring accurate and reliable data migration and integration processes.
- Possess advanced proficiency in Microsoft Excel, utilizing its diverse features and functions to analyze, manipulate, and present data effectively.
- Proficient in Salesforce Service Cloud, possessing a comprehensive grasp of its functionalities and capabilities.
